WE WILL ALWAYS REMEMBER: THAT THE SCHOOL YEAR OF 1941-1942

BROUGHT US BOTH JOY AND SORROW; THAT WAR WAS DECLARED; AND THAT

A CAMPUS, LESSENERED BY THOSE WHO ENTERED THE ARMED SERVICES WAS

PUZZLED AS TO THE STATUS OF THOSE WHO REMAINED.

WE WILL ALWAYS

REMEMBER THAT ALL OF THE DEPARTMENTS DECIDED TO OPERATE ON A

YEAR 'ROUND BASIS; THAT THE COLLEGE OF ARTS AND SCIENCES ANNOUNCED

A NEW GRADING SYSTEM; AND THAT THE ACTIVITY INCREASED AS STUDENTS

ASKED FOR DEFERMENT OR INQUIRED ABOUT V-7 AND OVS COURSES.

WE WILL ALWAYS REMEMBER THAT THE NEWCOMB COLLEGE GIRLS WENT

ALL-OUT FOR PATRIOTISM BY AN UNENDING SESSION OF KNITTING FOR THE RED

CROSS; AND THAT THE TULANE NAVAL UNIT GRADUATED ITS FIRST CLASS OF RE-

SERVE OFFICERS. **W**E WILL ALWAYS REMEMBER THAT AN UP AND DOWN

FOOTBALL TEAM PRODUCED SOME OF THE MOST SPECTACULAR PLAY EVER SEEN

IN TULANE STADIUM; AND THAT THE OUTSTANDING PERFORMANCE OF ERNIE

BLANDIN PROVED HIM TO BE AN ALL-AMERICAN TACKLE. **W**E WILL ALWAYS

REMEMBER THAT THE BEAUTIFUL NORMAN MAYER MEMORIAL BUILDING, HOUS-

ING THE COLLEGE OF COMMERCE AND BUSINESS ADMINISTRATION, WAS COM-
PLETED AND DEDICATED; THAT INFORMAL PARTIES WERE INITIATED AS UNI-
VERSITY FUNCTIONS; AND THAT THE ENTIRE UNIVERSITY TOOK PART IN THE
PROGRAM FOR NATIONAL DEFENSE IN SUCH A MANNER THAT IT DID NOT LOSE
STEP WITH ITS ORIGINAL PURPOSE.

WE PAUSE TO PAY TRIBUTE TO THOSE MEMBERS OF THE UNIVERSITY WHO
WILL NOT SEE THIS EDITION OF THE JAMBALAYA: DR. BRANDT VAN BLARCOM
DIXON, PROFESSOR HAL W. MOSELEY, DR. RAYMOND FREAS.

THIS SECTION CONTAINS THE ADMINISTRATIVE OFFICERS OF
THE FACULTY, THE OFFICERS OF THE STUDENT GOVERNING BODIES,
AND THE STAFFS OF THE STUDENT ACTIVITIES—ALL OF WHICH
COMES UNDER THE HEAD OF *Administration*

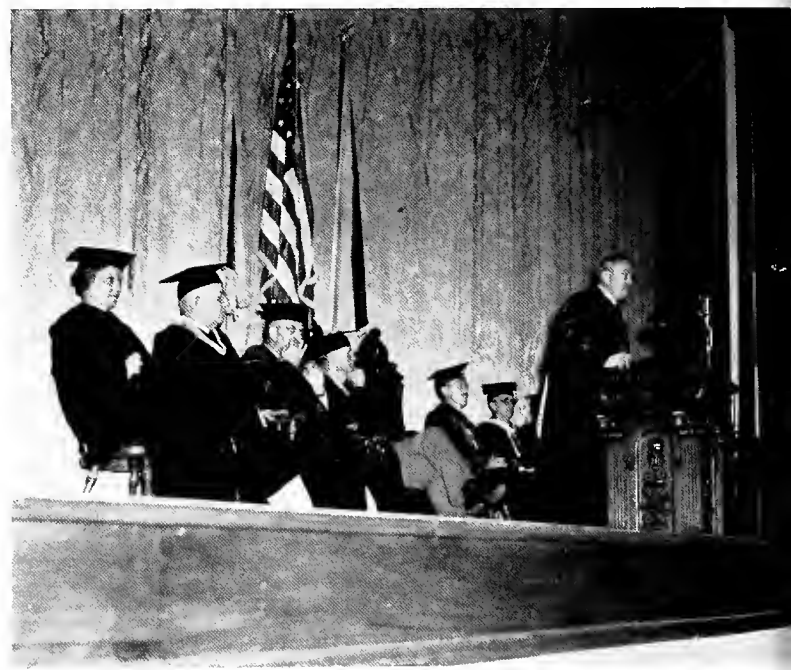

This year has seen our entry into the war which I believe most of the thinking people felt eventually would be upon us. While at first it brought confusion in our minds and in our responsibilities, our courses soon were set. The great change in the plan of the university as a consequence has been the inauguration of the twelve-month program, designed to shorten your college life. The purpose of this shortening program is not to give degrees to soldiers. I do not believe the bachelor's degree will materially change the effectiveness of our army. Our purpose is to more immediately supply the nation with young persons having educational background and technical knowledge necessary in the increasingly difficult and greatly augmented work of war, government, business and industry. For the individual it is to enable him to complete his education before it may be interrupted by experiences which may bereft him of the ability to study or to learn by study, or before other duties and responsibilities of life demand him.

I do not believe that we must sacrifice education to win the war. It is one of the most important objects of the war. It is one of the best defenses of the country. But when war is declared longrun activities must be changed to meet the immediate emergencies. Education fundamentally is a long-run activity. It now must endure a temporary change in function. What the country immediately must have is vocational training and applied science in front of liberal arts and pure research. We may hope that the war will not be so severe as to require our complete transformation, that is of our faculty and students into soldiers, our campus into drill grounds, and our buildings into barracks. But we know that if necessity demands any or all such activities, they will come to pass. Total war may mean the total extinction, for a time at least, of Tulane University. I say this as bluntly as possible not because I think necessarily that it will happen, but because I consider it important that we understand that the setting of our work has changed.

I hope this book may record the changing aspect of the University's life in a manner that will preserve as much as is possible the brighter and happier moments of the year.

The Student Council at work.

The Tulane Student Council is composed of the presidents of the various colleges of the university. Along with Kendall Cram, the Graduate Manager of Student Activities, they plan the activities program for the students.

The members of this year's Council are: James Ewin, President, Engineering; Peter Mandich,

KENDALL H. CRAM
Graduate Manager of Student Activities

ANN PENDERGAST
Secretary to the Graduate Manager

Vice-President, Arts and Sciences; Kenneth Higgins, Law; Robert Ball, Medicine; Leonard Stern, Commerce; and Louise Nelson, Newcomb.

Such a busy and peppy group seemed to have time to revise the Constitution of The Associated

Students, and also seemed to have done a very good job at it.

Highest honor to a council member seems to be the success of getting a date with the Newcomb Council member for their annual banquet.

Lagniappes

Superseding the defunct "Cotillion Club," the Lagniappes reigned this year as the campus dance organization. Composed of representatives from the organizations of good repute on the campus, it has functioned surprisingly well under the guiding hand of "Nap" Terkuhle, present plenipotentiary.

Their main and only presentation of the first semester was the Homecoming Dance at which Nick Stuart, the man with the band from Movieland, rendered the music. The dance was a pip, a howling success. Again in April they surprised the student body with a name band in the person of one Charles Spivak. He brought his orchestra along, and the dance was another tremendous success.

The Lagniappes have done well by themselves in their first year of existence. Next year—who knows? Maybe we'll be dancing in Tokyo at a Lagniappes shindig.

Student CENTER COUNCIL

The most industrious of the councils these days is the Student Center Council. They plan something every day and night during the year just for us poor little students. From coffee and doughnuts to the most formal teas, from getting you a date to giving you a place to bring the one you already have, from learning the conga to learning classical music, and from doing a square dance to getting "hep to that step" at a formal dance all comes from the work and planning of this busy little group of "beavers." The Student Center Council has done the very best this year—gotten the students to the Student Center.

The Publications Board is the middleman in Tulane Student publications. It is composed of the largest number of activities bosses in any student organization, except the all-high Student Council. The members that can "yea" and "nay" are the Editor and Business Manager of the "Hullabaloo," the Editor and Business Manager of the "Jambalaya," two representatives from the student body who are class presidents, and two members of the Student Council. The Chairman of the Board is the President of the Student Council. When this solemn body needs suggestions, it looks to Mr. Simmons and Mr. Cram for able response. One of the most responsible jobs on the campus is performed by this illustrious group when they elect the Editors and Business Managers for both the "Hullabaloo" and "Jamabalaya."

Alumni

The Alumni Association of Tulane is a national organization which has become a salient factor in the progress of one of the South's oldest and greatest universities. Through it each alumnus is given an opportunity to serve and assist in the progress of the university.

The officers and members of the executive committee are elected from the local clubs which are in widely separated parts of the United States, but the central office is located on the campus at the Student Center, gift of the alumni to the university.

The Alumni Association has recently reorganized its class agent system, which now gives representation to each class in each college. The system will be permanent, and the agents will serve in whatever capacity the exigency of the university demands. Under this new system, former classmates who have drifted apart will become reacquainted. This is another step in the great growth of the Tulane Alumni Association.

In years past the Tulane Hullabaloo has been a rather small, not too well read campus something that the students had to pay for at registration time and so received whether they wanted it or not.

This year it has been a noticeable fact that the Hullabaloo has at least been read, willingly, by almost the entire student body. Newcomb subscriptions reached a new peak. Several installments of a controversial subject at the beginning of the year might have had its influence on the number of students who read the rag. There was the little Gipson incident, which aroused the student body and others, and then we were entertained and enlightened over a period of weeks by the amazing Mr. Monroe who breezed down the highway and almost disappeared in the cloud of dirt and dust he raised.

We were amused at the outset at the Thompson boys,

Teddy and Walt, who announced they would attempt to clean campus politics from the pages of the student publication, and to do whatever they could to otherwise clean up the campus, thereby gaining for themselves the nomer, "GOLD-DUST" twins. It was with quite some surprise that we learned they did get the Stop signs commuted to Danger zones and other small but rankling subjects attended to.

We all were grateful to the Thompsons for their conscientious minimizing of trivial Law School data, a matter which was greatly exaggerated by some of the past editors of the Hulla.

Twaddler was cut from a rugged listing of "What Jerk was seen smooching in a new Pontiac in the park with what little Dorm gal?", to a new high in editorial-page Hulla conduct, notably the frequent absence of Twad and the substitution of student opinion trivial and sometimes national editorial matter.

New makeup and layout of the paper added to its readability this year, type and makeup changed greatly from the old Hulla. Art layouts were instituted this year for the first time, with Jeanet Steckler of the Newcomb Art School as Layout manager. Warren Stern, Super Business Manager, has done things in the selling line too, and he is pushing on to record-breaking ad business for the weekly.

Altogether the Tulane Hullabaloo this year has come a long way over the small and unattractive papers of past years. The goal of the Hullabaloo will have almost been reached, when, sometime in the future, the paper will have a full-time staff and a press of its own on the campus.

N A V Y R. O. T. C.

The entry of our country into war coincides with the graduation of the first class from the Naval R. O. T. C. At the end of this school year the forty members of the senior class will divide and see service on all of the seven seas, each one contributing his share to the gigantic war output of the nation, and each one retaining within himself a small part of the "esprit d'corps" which has developed so strongly within the members of the Tulane Naval R. O. T. C.

This past year has also seen the unit reach its full capacity of two hundred and seventy-five students—a long way from the class of seventy-six of four years ago. The summer activities of this year were highlighted by a three-week training "cruise" to the Naval Air Station at Corpus Christi. The Battalion marched on the football field as part of the Homecoming ceremonies, and later, by invitation, marched in the Sugar Bowl. After the graduation of this year, the remaining classes are looking forward to the training period this summer, plans for which are now indefinite.

The BAND

The Marching Band on parade at the half.

Tulane's sixty-five piece band, under the direction of John J. Morrissey, associate professor of music at the university, embarked on a program which—as it was fulfilled step by step—moved it nearer and nearer to its goal of becoming "the outstanding band in New Orleans."

Making the football team's business its business, the band faithfully worked all fall to keep up the spirit of the boys no matter what the fates brought.

Branching out a bit from the regular procedure of parading at the games between the halves, the crack marching unit paraded with the Alabama and L. S. U. bands in downtown New Orleans on the eve of both of these games, and followed *The Wave* to Houston for the Rice game early in the season.

Homecoming brought out the band in its first appearance of the season as a concert band rather than as a drilling unit—though later the band and Naval Unit put on an exhibition together.

After the football season, the boys worked untiringly on the selections for their big event, the spring concert, and for a popular concert for the post-exam Campus Night show.

Tulane Symphony ORCHESTRA

The Orchestra rehearses for their Spring Concert.

The Tulane Symphony has as its primary purpose to provide musical enjoyment through participation to those members of the University who play an orchestral instrument. It is their further purpose to develop a notable organization which will present to their audiences programs of the highest musical standard.

The orchestra has shown itself to be a very sincere and talented organization, and has undertaken the very best in classical music this year.

They gave a concert in collaboration with the Tulane-Newcomb Choral groups, and of course their own Annual Spring Concert. This group has done much in recent years to make the student body more conscious and more appreciative of the finer types of music.

O R C H E S T R A

The Newcomb Orchestra is in reality a training group for the more advanced Tulane University Orchestra. Students of Newcomb College are afforded the opportunity to study the various orchestral instruments under the guidance of teachers from the New Orleans Symphony Orchestra.

Members of the Freshman Sight-singing Class of the Newcomb School of Music study the orchestral instruments as part of the course in sight-singing and ear training.

Those members who are found capable of the work are taken as members for the Tulane University Orchestra.

Comedy in "The Male Animal."

Dr. Monroe Lippman, Director.

With the completion of its fourth year, the University Theatre, under Dr. Monroe Lippman, achieved new heights in dramatic standards of quality at Tulane. "Berkeley Square," a costume fantasy, proved so successful that the closing show of last season, the campus-comedy riot "The Male Animal," was played three nights, inaugurating a new era in Tulane dramatics. A chapter of National Collegiate Players, honorary national dramatic fraternity recognizing excellence in collegiate theatre activity, was installed. This season the University Theatre's fifth, opened with "Outward Bound," a fantasy. Following the policy of giving the best in drama, and

making it available to the greatest number of students possible, the theatre decided to play four shows, three nights each. At this writing rehearsals are under way for William Saroyan's latest effort, "Jim Dandy," to be presented in January, followed by the Broadway comedy hit, "Mr. and Mrs. North," in March. The University Theatre has maintained a non-political standing on the campus throughout its existence, work on two plays being the only requirement for membership. Members include students from all colleges of the university, and many faculty members.

THE LAW REVIEW

The Tulane Law Review is a legal periodical, published quarterly by the faculty and students of the College of Law. It is devoted to Civil Law, Comparative Law, and Statutory Interpretation. The Board of Editors is composed of honor students in the Junior and Senior classes of the College. Their function is to comment upon various phases of the law as well as recent decisions of the courts. They are assisted by a Board of Alumni Editors, a Board of Advisory Editors and a staff of Contributing Editors who represent the highest type of lawyers and legal scholars in this country and throughout the world.

The Board of Editors pride themselves upon their use of the comparative method of legal research, believing that to reveal

the praiseworthy qualities as well as the shortcomings of different systems of law is an effective check upon tendencies to accept any one system as immutable.

Although most of the material published in the Review is written by members of the Board, its pages are open to all contributions which meet its standards of scholarship, research and literary style. In addition to the student material, the Review also contains articles of interest written by members of the legal profession.

Since its foundation in 1929 as the successor to the Southern Law Quarterly, the Tulane Law Review has become recognized in the United States and abroad as a leading journal of Civil and Comparative Law.

The Moot Court system in the College of Law is especially designed to train students in the preparation and argument of cases. It is this practical aspect of the legal profession towards which the efforts of the competition are directed. Technical training in research, brief writing, and forensics, the ordinary tools in the trade of a lawyer, form the foundation of the moot court work.

The Board is composed of twelve ranking members of the Senior and Junior Classes. The work of the Board is to prepare the facts to be argued, to sit as justices on the Supreme Court of the State of Tulane, and generally to supervise and administer the Competition.

In the academic year 1940-41, The Moot Court Competition was won by Pat F. Bass and Ford Reese. Their names were engraved on a marble plaque in the College of Law Library.

THE Y. M. C. A.

Throughout the many years of association with the men of Tulane University, the Young Men's Christian Association has drawn a straight line from student life on the campus and the highest ideals of living. Its members have followed closely along that line, using powerful intensive service as the keynote of outstanding social action for the community.

Of all of Tulane's organizations, none has ever offered a scope as broad and inclusive as the cultural, educational, and service programs of the Tulane "Y." Year after year, the finest of character-building training has been presented to hundreds of persons who have joined in the scheduled activities designed to create better feeling among the faculty, students, and the general public. Tulane without feeling at some time or another the surging influence of the "Y." Non-sectarian, the "Y" invites into its membership all students who are genuinely interested in the ethics and spiritual truth of the Christian faith as evidenced in practical daily living and social responsibility.

The spirit of the university is ever reflected in the high mental, physical, and moral code that has made of the Tulane "Y" one of the outstanding groups throughout the country.

GREENBACKERS

Although the Greenbackers is one of the newer school-spirit organizations on the campus, it has done much to promote a higher spirited group of students. Constantly at work on some project, this little band of "Trojans" has prepared numerous parades and bonfires throughout the football season in order to instill in the participants for the Wave the fact that every student is rooting for them to play their best.

After the football season was over, however, they did not stop but went into other fields. They have tried their hands at helping the Student Center Council with the "Saddle Shoe Stomps," and have been a boon to this project. They are an ever-willing gang, and will pitch into anything that they think will help made Tulane a better place.

T. U. R. K. S.

The Tulane University Rooters Klub is one of the honorary school-spirit organizations dedicated to foster that spirit which truly exemplifies the Tulanian, and which seeks to bring together the student bodies of Tulane and Newcomb in order to organize the fervor of the rooters. They are noted for their card displays and work in conjunction with the Greenbackers in parades and bonfires.

Founded at Washington and Lee University in 1865, established at Tulane in 1886, at latest report there were 67 active chapters. Their colors: Crimson and Gold. Their flowers: Magnolia and Red Rose.

Bobby Hart is head knocker. Poitevent is on tap as first mate. Ben Lockett takes down anything of interest at the meetings and has the biggest feet in town. Treasurer is another Lockett, he has big feet, too. Outstanding feature of the year was when Poitevent appeared on the campus without his crutches. Outstanding member is Lieutenant "Rex, the first" Finley, ruff, fuff Marine, who may be found at any time following a platoon of debutantes. McIlhenny is his drill sergeant. Biggest boon to the town was the opening of the Crimson and Gold room, it keeps them off the streets and out of the French Quarter.

BRUCE BAIRD
President

Founded at Miami University in 1855, another of the Miami triad. Settled here in 1886. At last count, there were 96 active chapters. Colors: Blue and Old Gold. Flower: White Rose.

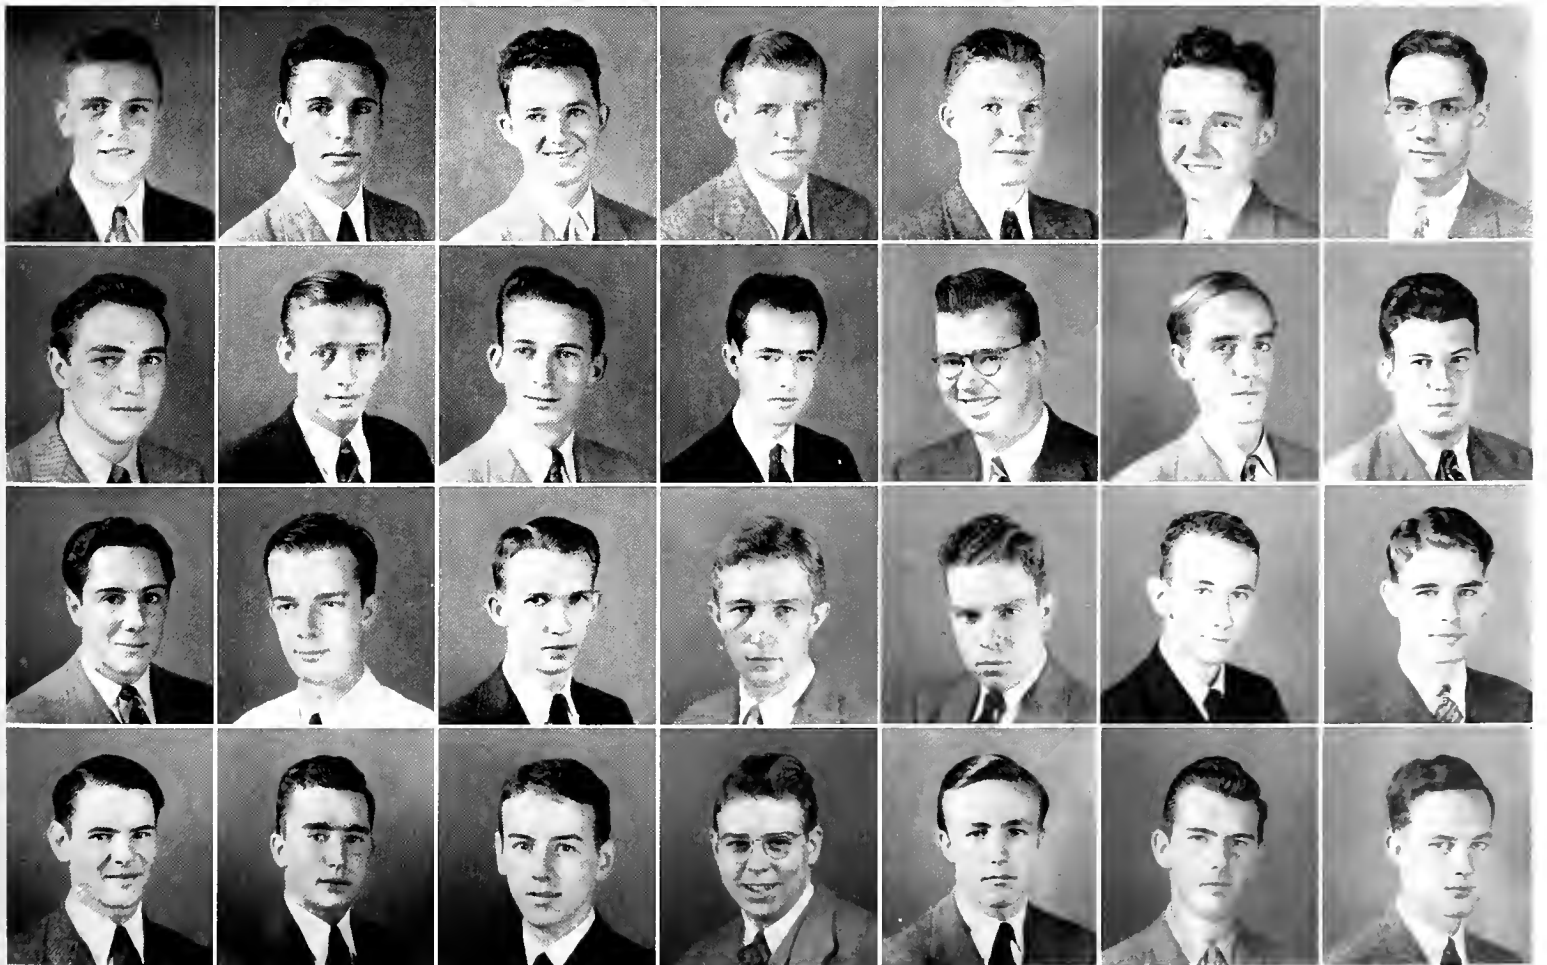

Seems that this outfit wants to be different so they ain't got no prexy; instead the line-up reads something like this: Consul, Bruce Baird; Pro-Consul, Paul Pigman. We translate that to mean President and Vice-President, but the next one stumps us: Quaestor, that could mean either secretary, or treasurer or both or secretary or housemother or both or treasurer or housemother or both or maybe all three or then again maybe none of 'em. At any rate we would really like to meet the guy. They didn't mention any more of their big shots so we reckon that Dizzy Labouisse don't come around any more. P. S. That quaestor guy's name is Stewart Long.

ROBERT W. SCHUPP
President

Founded? Certainly, at V. M. I. in 1865; established at Tulane in 1887. They have 96 active chapters scattered around the country. Their flower, the White Tea Rose. Their colors: Sky Blue and Old Gold.

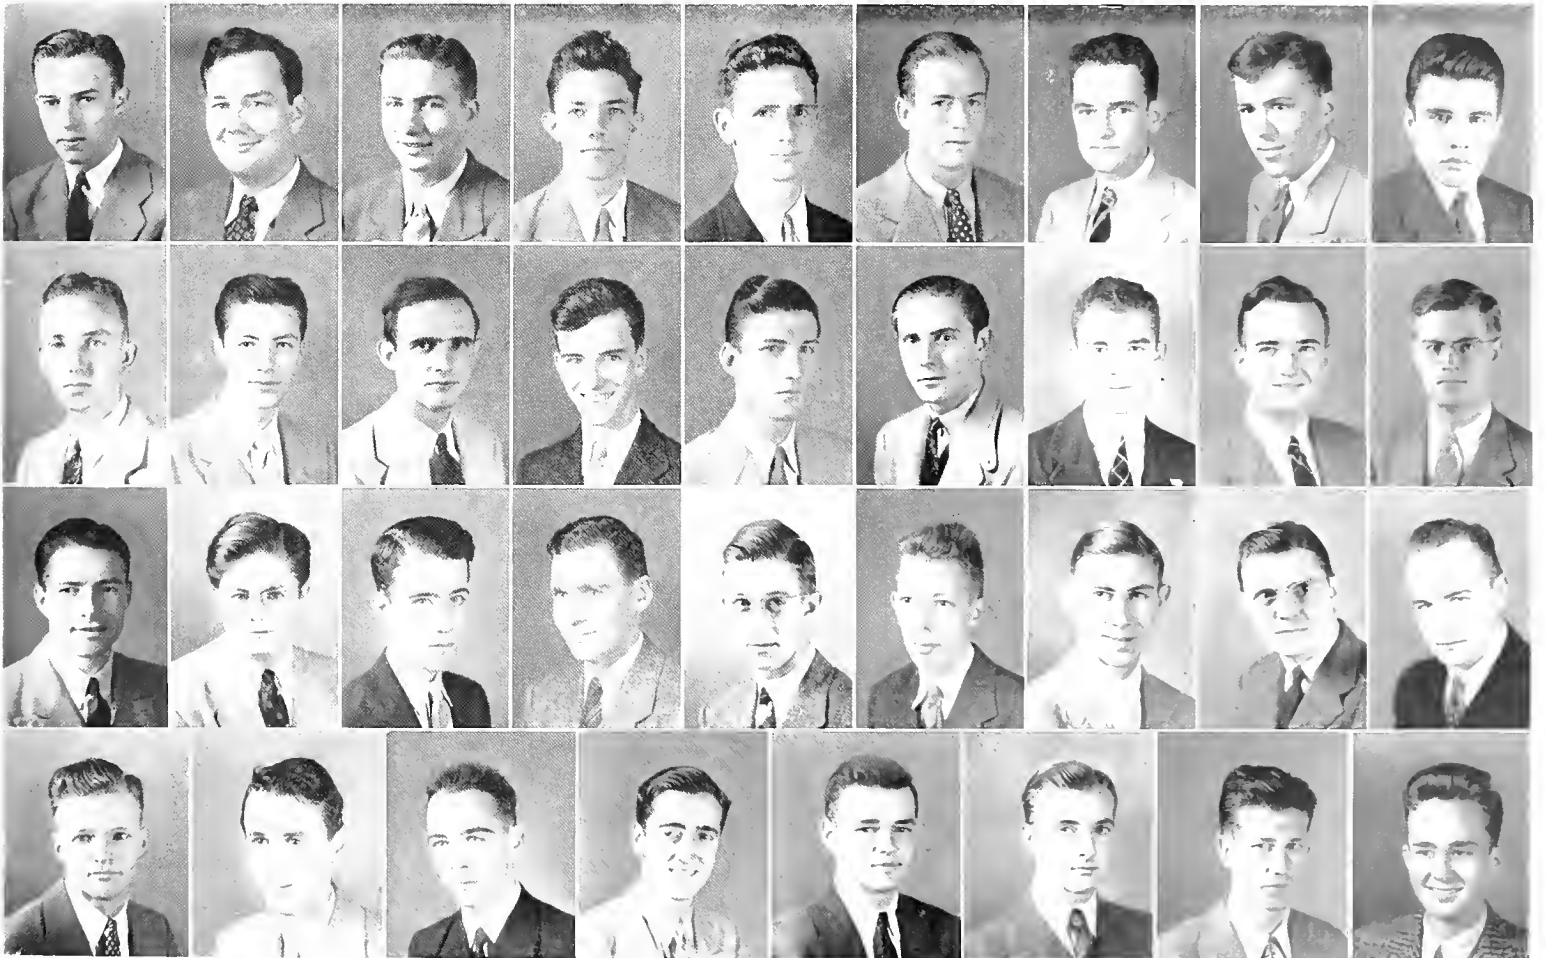

Bobby Schupp conducts the meetings in a most dignified manner—except that he refuses to wear shoes and pants. Sam Moody looks on wistfully as the number two man. Every now and then Frank Pennebaker lets a penny slip; the pennies are quickly snapped up by housemother Baumann, he must use them for food as no house improvements are noticeable. Bill Schneible is the lodge's only known double-dipper, he holds down the jobs of Recording and Corresponding Secretary. Biggest improvement on the campus and its environs will be when the junk man gets Pennebaker's old tea-kettle (vintage of 1908). Maybe that's the cause of the lack of funds in the treasury.

JACK C. WHITESELL
President

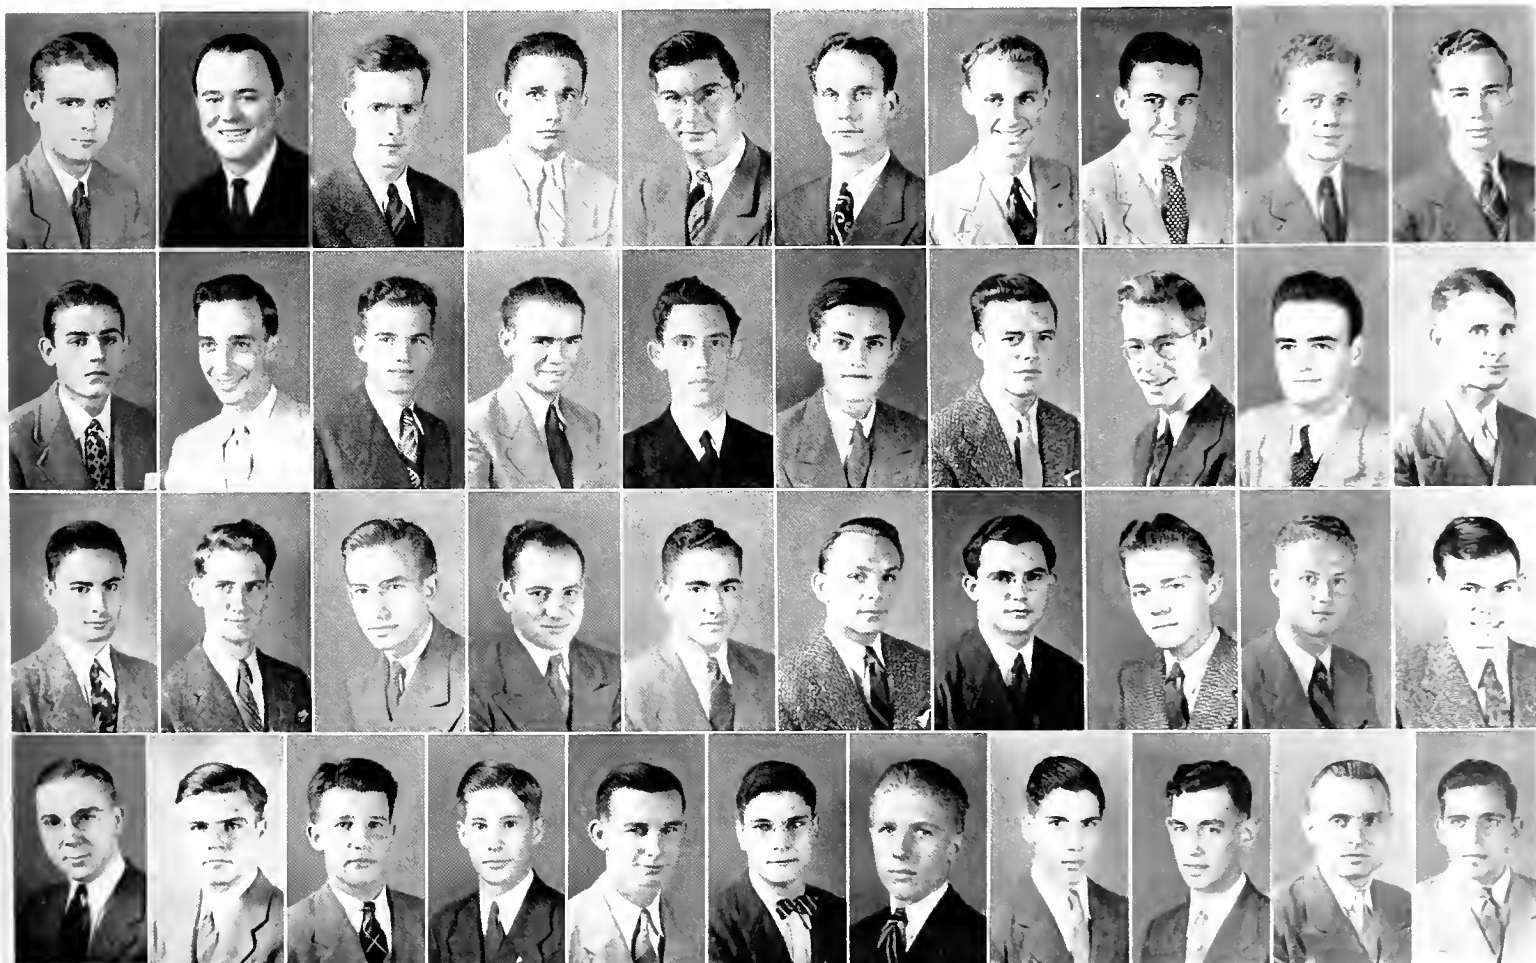

Too many years ago to mention, somebody started a lodge over in Europe. They tired of things there and came over here. The result: Kappa Sigma. It came over to the University of Virginia in 1869 and trekked here in 1887. There are, by the last poll, 111 chapters, that is, in the United States. Gawd knows how many in Europe (before Adolf, of course). Big noise of the local outfit is Jack Whitesell, Don Mosely is just noisy. Head of the double-dipping department is Ross Cahal. He writes both letters and minutes. Head of the disbursing department is Gentleman Jim Oviatt. Motto of the lodge, like Sherwin-Williams: We cover the earth.

RICHARD P. CROMWELL
President

Founded at Bethany College in 1859, established at Tulane in 1889. Their colors: Purple, White and Gold. Their flower: the Iris. There are 76 chapters extant.

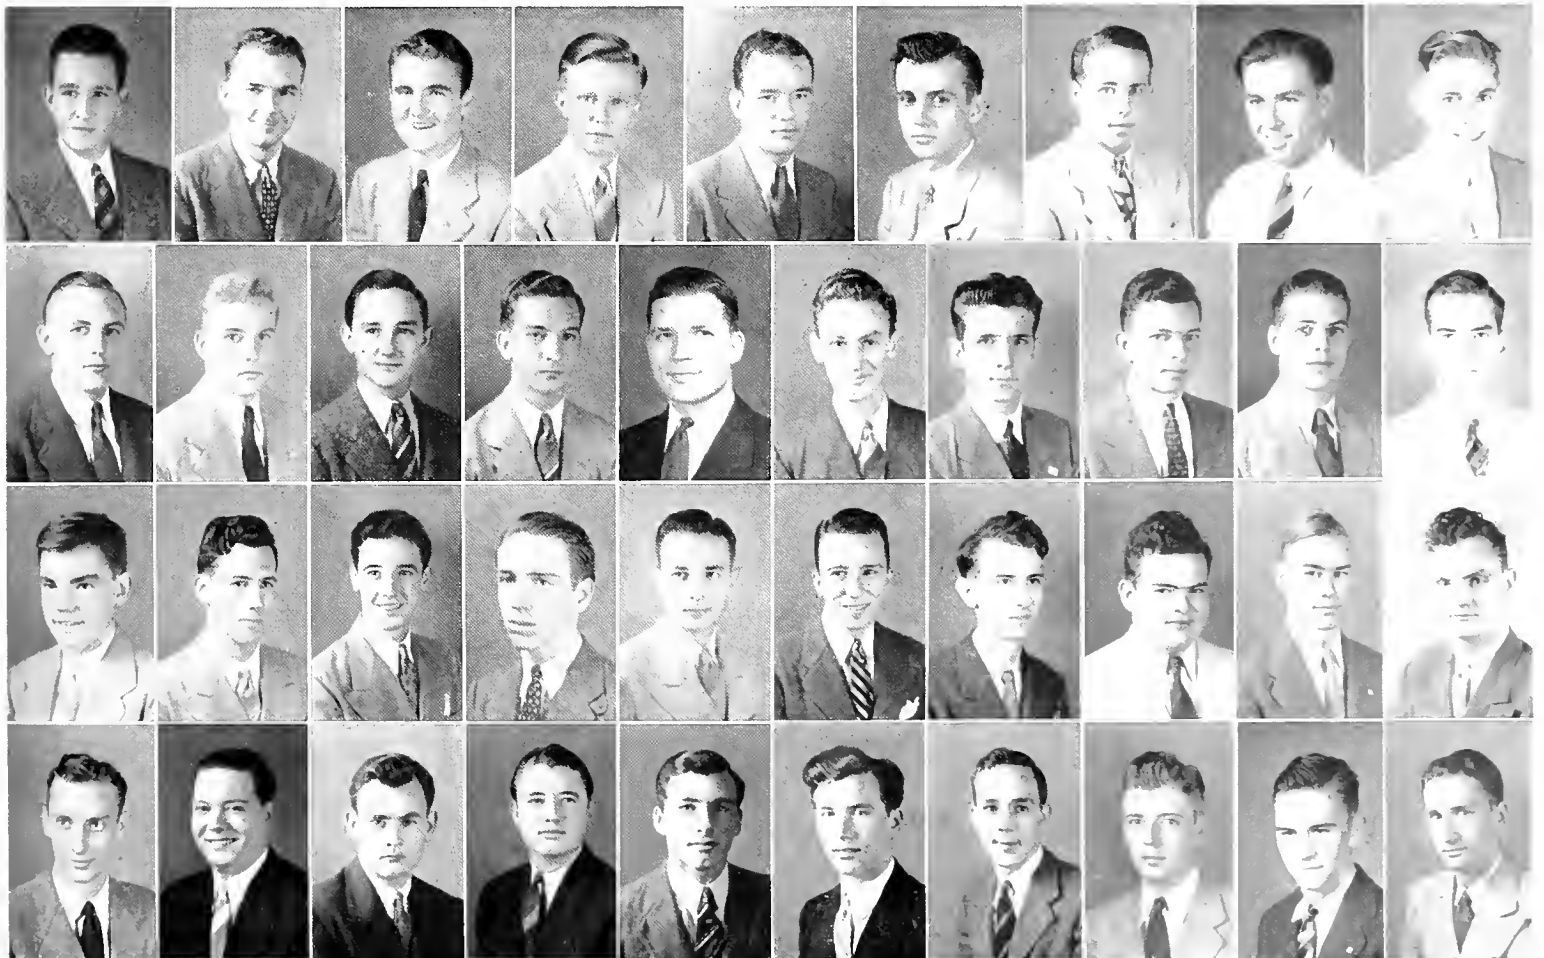

Big dawg is little man Richard Cromwell. . . . John McGraw is number two man, he just barks. Honest Jack Grayson is the people's choice to handle the cash and juggle the books. Richard Andry is the man with the pencil that catches any stray thoughts and sets them down for posterity. The neighbors are rumored to be refugeeing out of the surrounding territory. This is undoubtedly due to the peculiar (and loud) extra-curricular activities of "Mother" McGehee. It is not true, as rumored, that he throttles those that complain about his meals, only Roy Bartlett, who claims to be a better tennis player.

HUNTER COLLINS
President

Founded at Miami University, one of the Miami Triad, in 1848; established at Tulane in 1889. Their colors: Azure and Argent, which means Blue and Silver. Their flower: the White Carnation.

The house is reported to be settling, this is probably due to the heavy tread of the brothers dancing at their numerous parties which are probably due to the proximity of Ursuline Convent. Hunter Collins is the head man and also keeps the ice-box filled with ham and other assorted cold cuts from his unsuspecting pappy's meat packery. Jack Robinson is chief stooge; R. L. Gates records whatever pearls of wisdom that may be dropped at the weekly chapter conclaves; Bill Frost controls the purse strings, and has dates every night.

HARRY DAVIES
President

Founded, they say, at the University of Alabama in the year 1856; established, they allege, here in 1897. Scattered about the country there are approximately 113 chapters. Their colors: Ole Gold and Royal Purple.

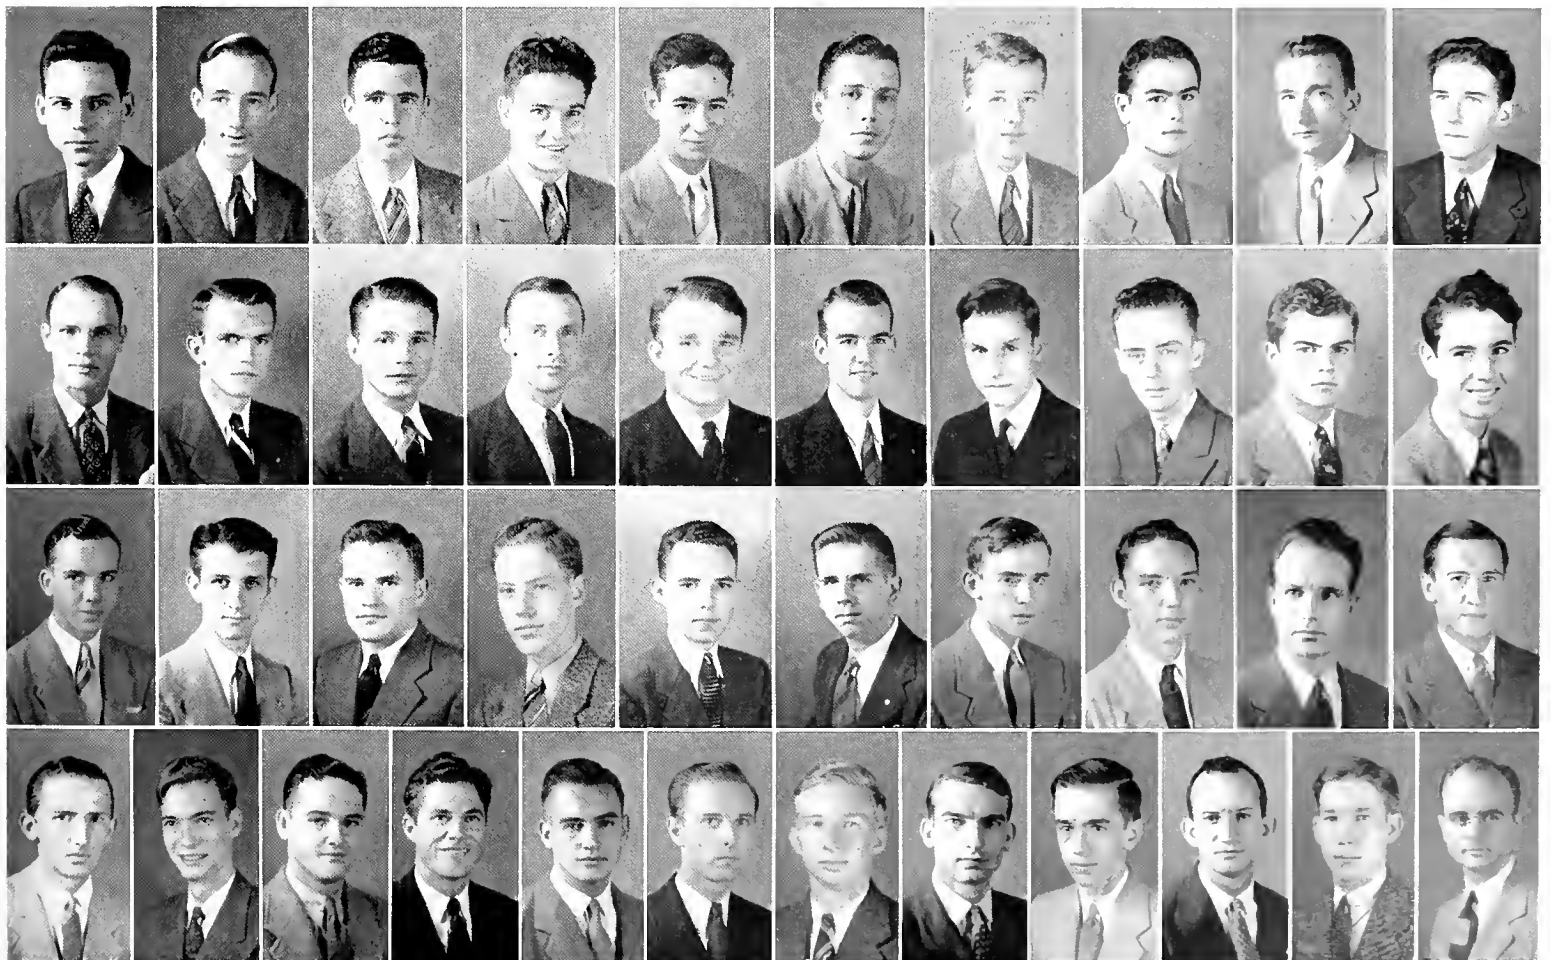

Big chief is little Harry Davies, Miazzi is merely chief. Alvin Gottschall buys the records, pays the cook and rent, etc. The cute sayings of the kids are taken down by a guy named Guillot; house momma is footballer Bittman. Other notables are Mandich and McCollum.

CAREY ELLIS
President

Founded at Yale in 1844, at Tulane in 1899; 47 active chapters. Their colors: Red, Azure and Gold. Their flower: . . . the Pansy!

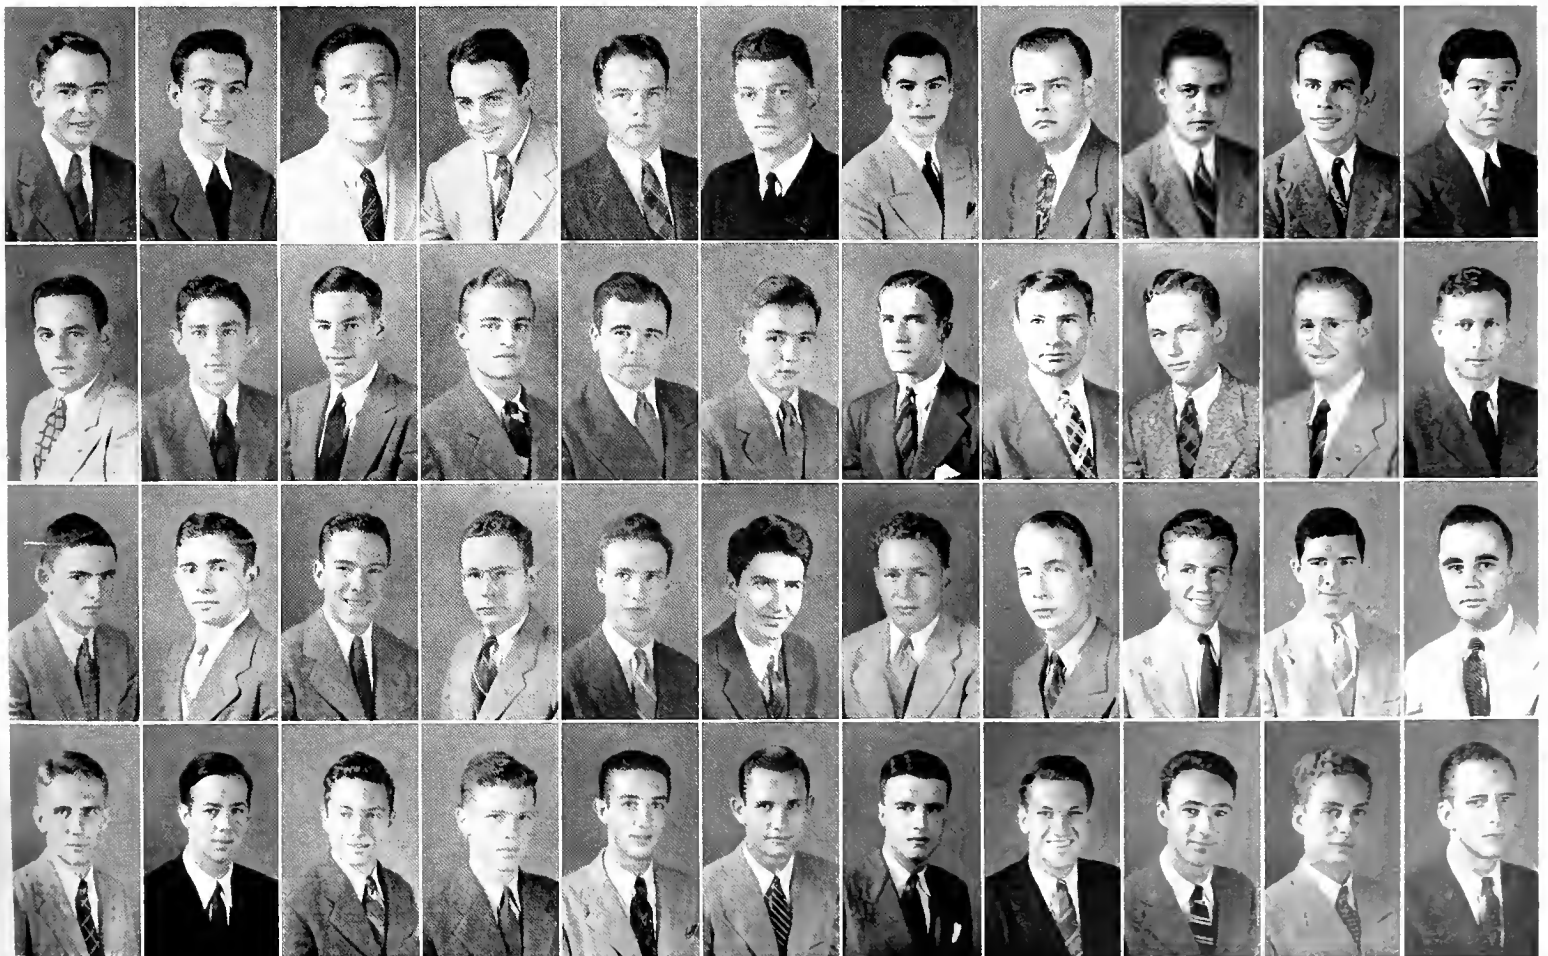

Carey Ellis calls signals which are repeated in a small voice by Jack Schneidau. Brother Logan handles any and all minutes which consist mostly of notes on Terkuhle's constant screamings for bills to be paid and/or accounts of changes in the by-laws by Don Ehrhart who takes the law school and its vice-presidency too seriously. Pledge master automatically went to Mike Wheeler who can out-shout and overawe any group of freshmen. Campus activities consist of keeping one jump ahead of the alumni landlord, the neighbors and the office of the President, not to mention the seventh precinct police. Outstanding contribution to the welfare of the world is not inviting outsiders to their poisonous purple passion parties. Big improvement: they painted the house, this was recommended as far back as 1901.

JAMES P. EWIN, JR.
President

Founded at Miami University, another of the Miami Triad, in 1839. Established at Tulane in 1908. There are 90 active chapters. Their colors: you guessed it—Pink and Blue. The Rose is their flower.

Dictator of the lodge and attempted dictator of the campus is Little Caesar Ewin. The Caesar is well known for his ability in not being able to breakup post-football game riots. Dictator sub one is that well known flash gun artist, Leon Trice. Controller of the Currency is Bill Hudson, who also leads the senior Civil Engineers and is also an Ensign in the Navy. The minutes man is Ralph Merriman. Any report that all the Betas have given away their pins is a gross exaggeration—Claypool still has his. The house is on Audubon Street, not at the address given in the phone book, but across the street in "Ye Olde Tippe Toppe Tea Roome." There the boys may be found at any time either talking to or waiting for their better halves and we do mean better.

ISIDORE COHN
President

Founded at the Jewish Theological Seminary in 1898. Staggered down here in 1909, been here ever since. Thirty-five active chapters. Colors: Blue and White.

Izzy Cohn is chief dissenter but calls himself commander. Dirty Davis is Lieutenant Commander and Joe Goldberg handles all writing. Jules Dreyfous handles the purse strings all the while under the eagle eyes of the brethren. Apparently they believe in doing things in a tremendous way because there are not one, not two, but three housemothers. From left to right, they are Harold Marx, Howard Strauss and Eugene Hesdorffer. They don't say which one watches which one. Seems like there should be at least three treasurers, too. The house is up for sale (adv.) probably due to internal destruction by Wolbrette.

MAURICE PICHELOUP
President

Founded according to their rushing propaganda at the College of the City of New York in 1899. Arrived here and stayed in 1916. Forty-five chapters extant. Colors: Nile Green and White. Flower: White Carnation.

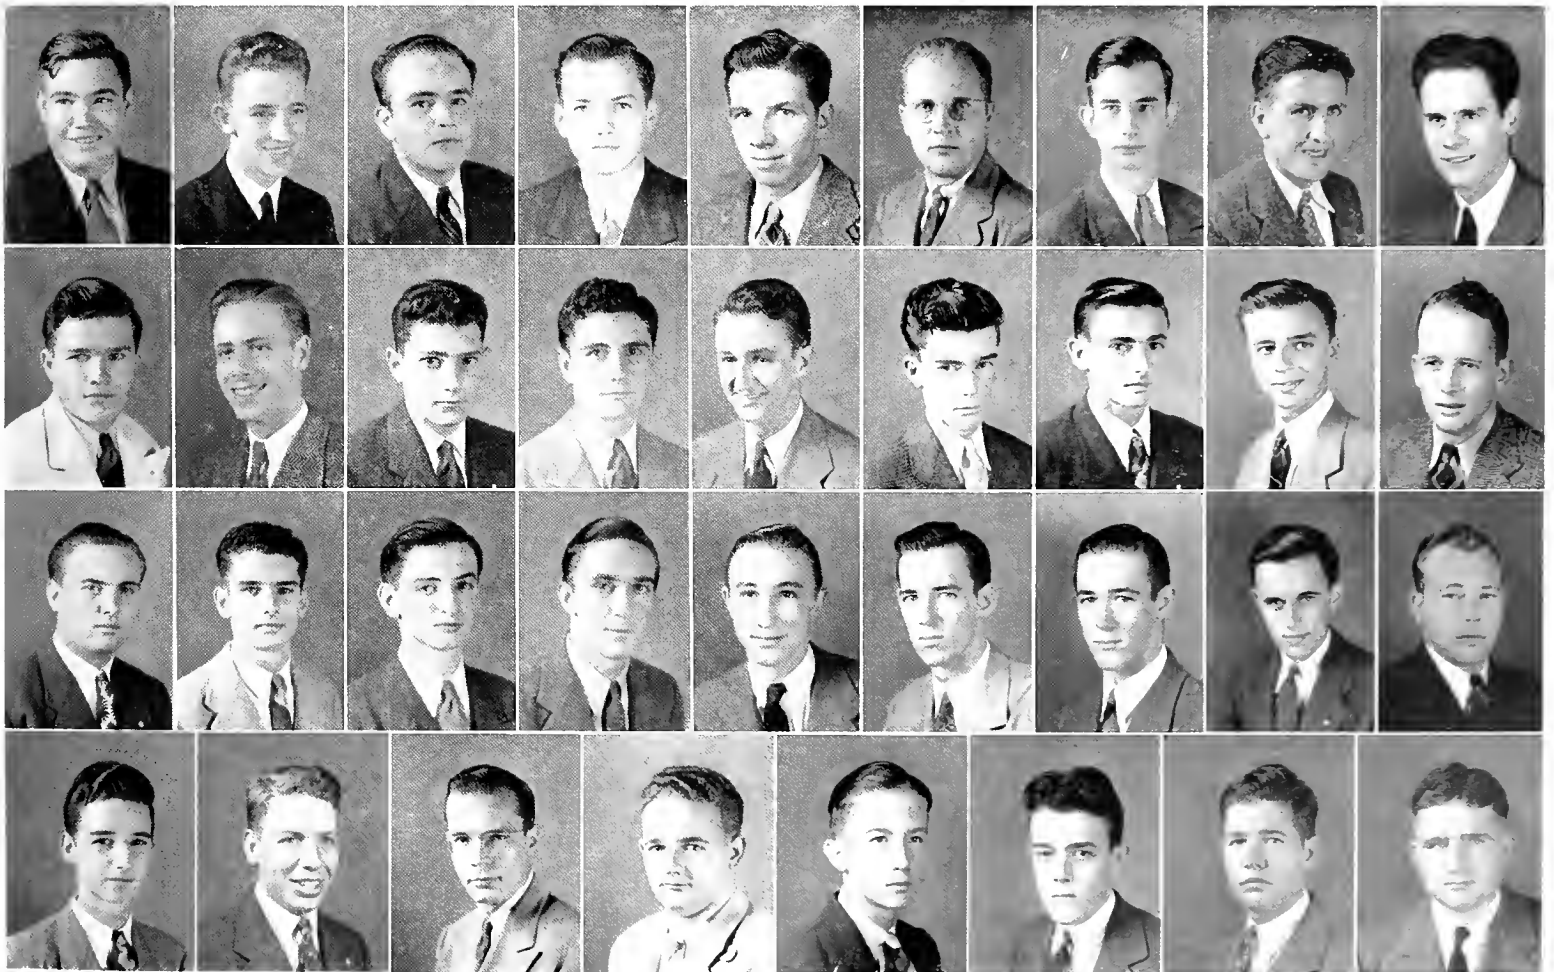

The Board of Aldermen include Maurice Picheloup as gavel grabber and Lloyd Eagan as g. g. sub one. As Fred Heebe had the only legible handwriting they made him Secretary. After persuading the brethren that he was honest (and posting a bond) Fred Schuber was chosen treasurer. Monthly meetings are held at least once every semester.

MARVIN ROSMAN
President

S. A. M. stands for any number of things among which is SAM which has nothing to do with them or with this. A bunch of the boys got together in New York back in 1909 and SAM is the result. They opened for business down here in 1920. To date they count 27 active chapters. The colors: Poiple and White. Flower: Lily (ungilded).

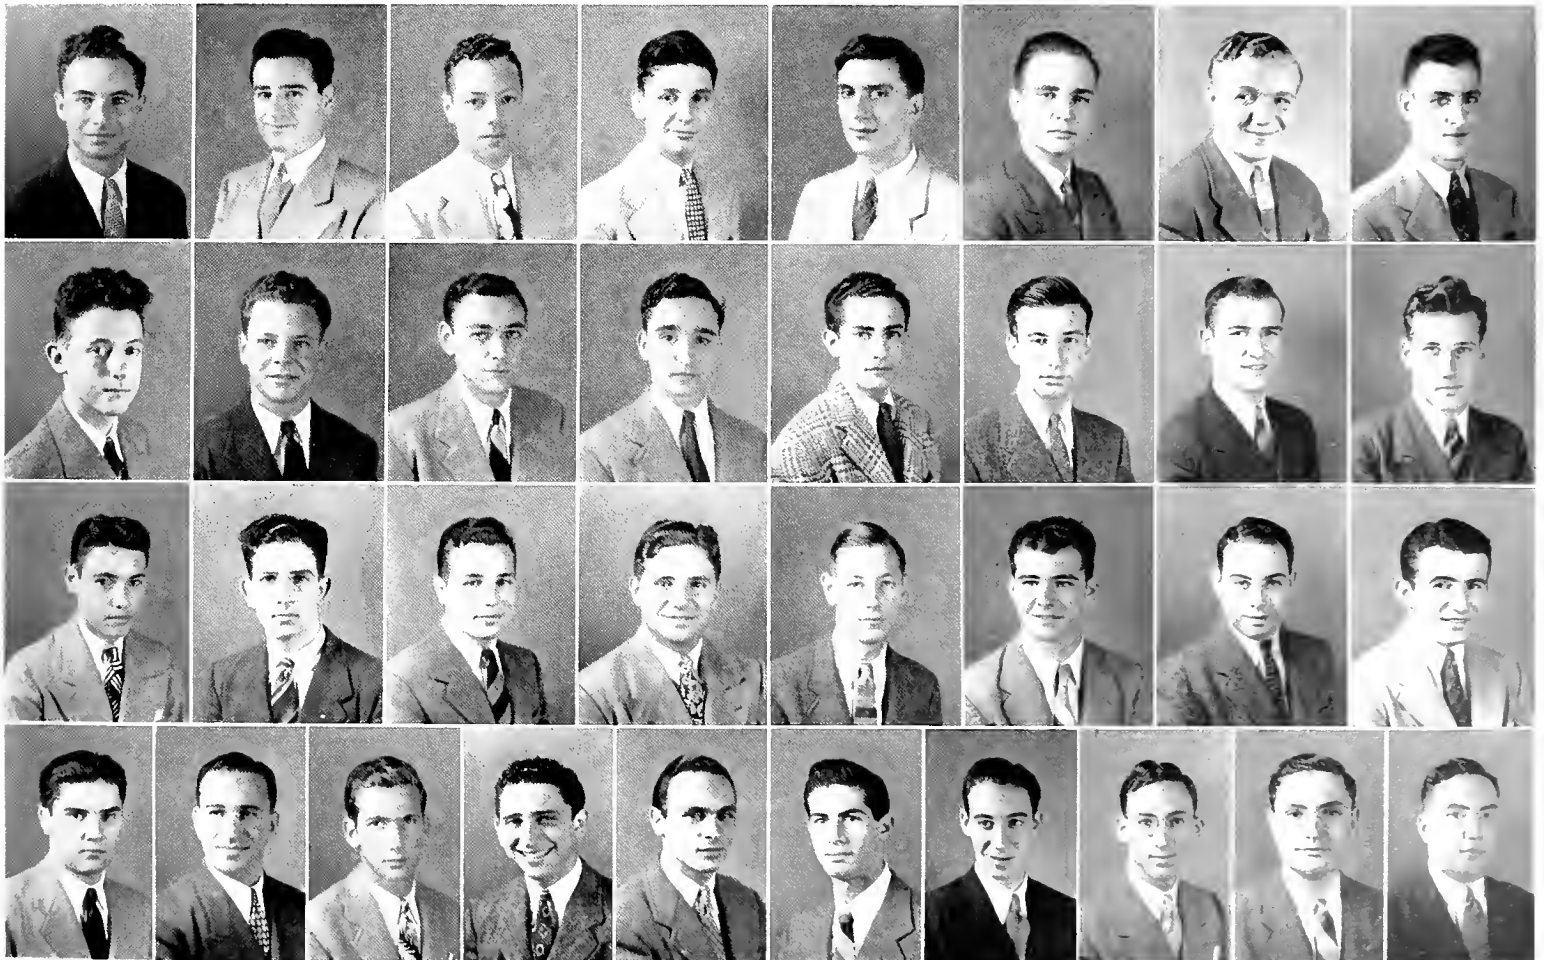

Marvin Rosman beats on the wall to keep order and is said to be president. They have no vice-president for which they are to be commended. Pencil pusher is Allen Kolter. Mr. H. Simon Kaplan, III, makes use of whatever moneys happen to be hanging around.

RAFAEL NAVARRO
President

Founded at L. S. U. in 1904, established at Tulane in 1932. Twenty-six active chapters. Their colors: Blue, Red and Gold. The flower: Red Carnation. The most Southern end of "Good Neighbor Policy" is represented on the campus by Phi Iota Alpha. Besides their strenuous activities as good will ambassadors they are also the university's foremost exponents of that well known but little played game—soccer. Chief ambassador of the outfit and its president is Don Rafael Navarre Cadiz; second in command is el Senor Osvaldo Bacido Gonzales; recording secretary is Marco Fidel Tristan; treasurer, Jorge Soto.

These gals come together under one roof for the purpose of having a set of rules issued for the sororities so that they will be nice little kittens instead of cats in affairs of the lodge type. They go about shedding their good will to all with such worthy things as their rushing regulations, their annual tea, and their Christmas party. These good will ambassadors also play the dual role of judge for sorority pledging and administration.

PAT STITES
President

As one and all will agree, these chicks are proudest of the fact that one of their sisters is MARRIED. Probably due to Pond's cold cream or Jergens' lotion. Their activities range from athletics to the equally ridiculous. Their biggest asset is the fact that they have a house party after mid-term exams. We've heard that on these house parties they — oops — Celeste Douglas and Pat Stites are in Collegiate Who's Who; Eva Douglas is Secretary of the Stude Council, her stooge on the council is Jackie Labry; they are well represented on Greenbackers and TURK, Betty Monroe being in both; the intelligentsia are the two Douglasses, LeBlanc, Landry and sometimes Jones who also is prexy of the thing. Apparently they want it known that they are (that is some of them are) pinned to various local characters, chief among whom is Charles Donnaud. Their rushing consists of numerous hair-pulling contests with the Kappas about whom they say: (2,480 words deleted by censor). The Kappas reply in kind. (See page 98.)

They say that they (1) play bridge; (2) study; (3) are noisy; (4) nosy; (5) nice; (6) double-dippers; (7) double-crossers. Quite an imposing record. They self-admittedly mix in anything whether it's any of their business or not. This is certainly not a virtue. They have some alleged claims to fame (they say), chief of which is the noisiest thing this side of a naval battle, naturally we mean Spennie Spencer who, by a concerted vote of the music lovers of the university was sent to New York to flabbergast the entire nation with something called the Boogie Woogie Piggie. The above is considered a doubtful asset by one and all. Besides the above they have numerous members scattered around in campus activities of various importance, to-wit: Collegiate Who's Who, Dotty Ecuyer and Edith Smith; Campus Nite chairman, Dotty Ecuyer. A young lady who was chosen to be soloist with the New Orleans Symphony Orchestra, her name is Miss D. Ecuyer. They also claim positions as business manager of this thing, Newcomb editor of the same; business manager for the Hulla; boss of the French Club (questionable asset, probably a liability). All in all they are indeed all 'round gals, they say.

They have been very busy this year—they say. What with a dizzy whirl of parties, dates, banquets, etc., the poor girls haven't had time to turn around. This went on until December, then, and we quote, "things became soberer." To bad, eh, girls—but what a hang-over! As is everyone else they are busy knitting, saving silver paper, buying bonds, etc. Oh, yes, they run a lending library at Touro. When she can spare time from Terk, Elsa Hoehn raps the gavel. Other officers are Simmons, Cash, Kinabrew, Hopkins and Jones. Where's Balmer? They have two members in Who's Who (and who hasn't), Nita Kidd and Norinne Vincent. Ah! All propaganda to the contrary, the Kappas are just like the rest of the female social organizations. They give a couple of dances at which the Kappas have a wonderful time, they knit (which is meritorious), they have their pet charities and so on. All in all it's really pretty dull. They are known and reknown for their unfortunate propensity for accepting Beta pins. There was a time when even—well that's another story. They have a custom that we think is unique among sororities, it is what is called a standards committee. From what we understand its aim is to keep the poor freshmen from falling into the same pitfalls that their older sisters have blundered into. It is felt that this is necessary due to the proximity of the KA house. Their extra-curricular activities consist mainly of saying that the Pi Phi's are (Ed. note, at this point there came a brief 50,000 word dissertation on Pi Phi. We don't believe that the two are very friendly).

The Phi Mu's won the Campus Nite Skit Kontest last spring. There can be no doubt about this. Ask one of 'em. Further, Phi Mu has had the highest scholastic average of any sorority on the Newcomb campus for the WHOLE session, 1940-41. There can be no doubt about this. Ask 'em. They, too, have numerous big-shots on the Newcomb campus, said big-shots being Mary Cahal, president of the Art School; Mary Cahal, vice-president of the stude body; Mary Strahan, secretary of the stude body; Mary Strahan, president of A. Honored (?) their pledges with several (two) informal parties, including a Winter Formal . . . when will a sorority do something different? . . . effusively greeted their Province Prexy . . . darned near broke 'em . . . then the actives caught back when they told the pledges to give them a round of parties . . . apparently they go from one round of their own parties to another . . . very monotonous.

Being different, or trying to be anyway, from the ordinary run of the mill sororities, the A. E. Phi's, like the Sigma Chi's, don't go in for this president, vice-president stuff. They have a dean and a sub-dean. They are, respectively, Evalyn Stolaroff, who acts, and Julienne Benjamin, who is pinned to a guy. Their biggest moment came when they agreed to forego corsages for their formal and turn the money over to the British War Relief. The B. W. R. immediately countered with cute little buttons for the girls. This might have gone back and forth forever but one of the parties ran out of dough and we don't mean the B. W. R. They call special attention to Muriel Silber who is president of the Archery Club and "loves her shooting." They are, they say, well represented on the campus.

Astounded rushees with such sundry things as Eskimo, Mexican, Red and White checkered parties. Once entertained pledges of the other sororities with a Circus Party, including Pink Lemonade, Clowns, Peanuts et al. . . . They have been knitting sweaters, sweaters and more sweaters for the Red Cross. This year they have decided to purchase a Defense Bond with some of the money that usually goes toward their Spring Formal. They got founded at Miami University in 1902 by the first six women to be admitted to the joint. It is the only N. P. C. sorority there. (Ed. Is that for or against them?)

They claim a number of national projects each of which is designed to do somebody some good. This is questionable. The national outfit claims a number of distinctions, chief of which is a quarterly publication and something or other called State Day. The latter is rather obscure and is not generally mentioned. They are proudest of their Trio, Ida Mae Hayden, Marie Cuquet, and Betty Lyle, who sing "Jim" or something. Other hot shots include Betty Beyer and Miriam Wild.

The School of Medicine on this campus is one of the best in the nation. We can readily understand this when we see the tired-eyed boys finishing up their work for the day after everyone else has left. But out of this grind, they are the most profuse party-givers in these parts on their one night free—Saturday. The whole University is proud of the stamina that the "Med" students show in making themselves a part of the greatest of professions.

College of

The French Code of Law is found in this College of Legal Knowledge along with the Civil Law used by most others. We are able to distinguish a member of this esteemed group of gentlemen anywhere and any time by their constant, if not always idle, chatter about all subjects. They spend their time learning the art of argumentation, and greet any listener with glee. Although the Law School has been hit the hardest by the war, it still possesses more radiant faces than the rest of the colleges of the "State of Tulane."

College of

A R T S A

This is the college which might well be called the "International House" of Tulane. No matter what branch of learning is being absorbed by the student there is at least one course that he takes in this college. Those of us who have the "B.A." or the "B.S." complex usually wind up with some special interest that will lead us to our life's work. The boys in this college put themselves apart from the rest of the students with that complacent attitude "I'm cultured."

College of

E N G

The slide-rule is the omnipotent tool in the College of Engineering. This part of the University has long maintained a high level in scholastics, and represents another of the high professions. The boys who construct are easy to "spot" on the campus because they always are more interested in comfort than in the finer things of life . . . mainly ties and coats. "Fifteen for the Engineers" is one of the most common of yells at the Stadium, and such spirit prevails only in the college of the "erector set" boys.

College of

C O

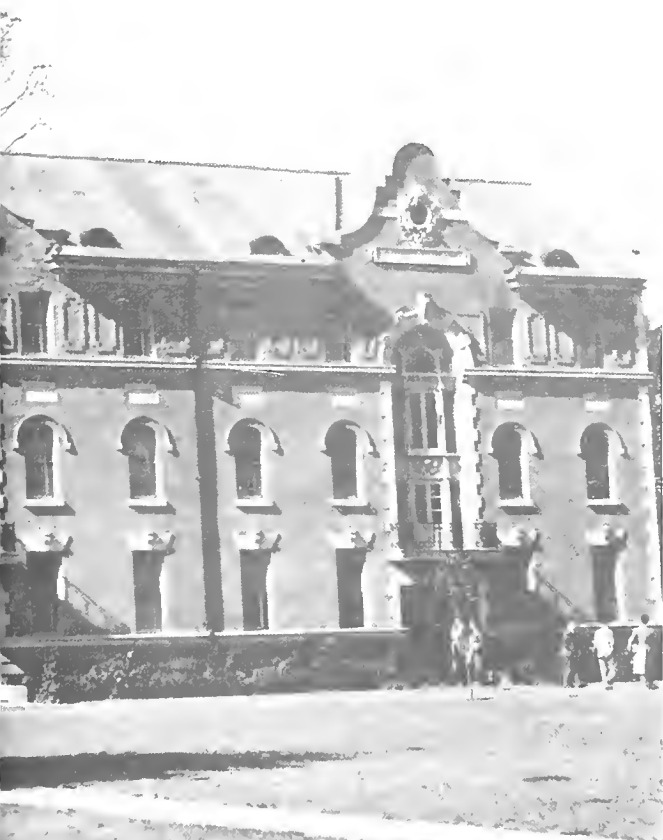

The College of Commerce and Business Administration is typified by that spirit of "If it's business, I know all about it" look that makes the rest of the University feel like paupers in knowledge. Their constant shop-talk about accounting, production, labor, and their new home on the campus always make them divisible from the other students on the campus. They are quite sure that the new library is no good, compared to theirs, even though they have never darkened the doors of the new one. The College of "Practicians in Business" will remember to their dying day their password—"Get the facts."

Newcomb College contains the "inspirations" for the boys in the other colleges on the campus. The fair damsels who make "goo-goo" eyes at night prove that they have a normal amount of intelligence when they get in class. They are also knittin', and some not for Britain, but they always seem to make their professors think so. Some of them possess that "Tea-room slump" while others use the smoking rooms for their gab-fests. We, as all other boys, think that they are "the reason we don't make the dean's list."

ERNEST BLANDIN • ALL-AMERICAN

After pages of type, numerous pictures, and reams of paper had been used to express the united opinion of all who saw him, Ernie Blandin has proven himself an even greater All-American because he is the same quiet, modest boy that he was before he had convinced any

fan of his greatness. Throughout the years that he has been here at school, he has endeared himself to all who have been fortunate enough to know him, and he has gained the respect of his team-mates, class-mates, professors, and fans.

Sports

A D M I N

The athletics for the year 1941-42 was, with one or two exceptions, very disappointing due to the lack of experienced material. However, a change in the coaching staff and teams with a year's experience make the prospects for next year somewhat brighter.

After a brilliant start, the football team turned out to be a hot and cold team, probably the biggest disappointment of the year. At the end of the season, we had won five, lost four.

The basketball squad, without the services of a single letterman, took a very extensive road trip at the beginning of the season. On the road and at home, the Greenies were usually on the short end of the score. However, they played some very spectacular ball, nearly always losing in the last few minutes when the experience of the opponents seemed to come through. Since the squad consists mostly of sophomores, future prospects are very bright.

I S T R A T I O N

The story is the same for the track team, with only one or two lettermen out. However, some good material was discovered that can be developed.

The one bright spot of the season was the tennis team. Led by Billy McGehee and Lou Schopfer, the boys won all matches. After that, they went to Nashville and won the Conference Championship, which Tulane seems destined to win for the next several years because of the wealth of tennis material.

The baseball team, under the direction of "Little Monk" Simons, displayed a good deal of spirit in winning over half of their games.

The golf team was only mediocre, losing all of their matches.

The program of physical training for everyone was developed by Coach Oakes, who had installed an "obstacle course."

PETE MAILHES, Assistant Coach

Tulane played its first season in 1941 under an all-alumni coaching staff. This staff, headed by Lowell P. "Red" Dawson, included: Claude "Little Monk" Simons, Jr., backfield; Charles Rucker, line; Vernon "Lefty" Haynes, ends; Thomas O'Boyle, assistant line; Pete Mailhes, Redshirts; Robert "Jitterbug" Kellogg, freshmen; and Carl Dailey and Fred Cassibry assistants to Mailhes and Kellogg. This was a well-balanced staff, and in spite of an unsuccessful season, their good work was apparent. The addition of Haynes as end coach definitely paid off in the brilliant work of Bill Hornick, Gordon English, Marty Comer, and Jay Rowland. The fine passing attack that the Wave used this season was due to the work of Simons and Haynes. Rucker developed Ernie Blandin into an almost unanimous All-American tackle. Jack Tittle, Walt McDonald, and Bob Glass were also named on many all-conference teams, and Larry Rice was named center by a wide margin on the all-conference sophomore team. The coaching staff turned out a well-drilled, versatile team.

CAPTAIN PETE MANDICH

Revenge is sweet and the Green Wave dipped deep in this one for a crushing 21-7 victory over the once potent Eagles of Boston College. The Greenies showed terrific power in subduing the Sugar Bowl champs, and completely out-played them. Sparked by Bubber Ely, Lou Thomas, Bob Glass, Walt McDonald, Gordon English, and Harley McCollum the lads in Green seemed destined for big things.

The Wave threw an electric shock into the crowd of 43,000 fans on the first play when, contrary to all expectations, they completed a forward pass for a neat gain. This pass was only a forerunner of things to come. Passing was to be the order of the day in this and succeeding games for at last Red Dawson had the material and coaching aid to develop a fine aerial attack.

The great showing of the Greenies in this opening game raised the hopes of all Wave supporters, but unfortunately these rabid rooters were unable to divine the future. Sadder tales were to be written.

Giving another display of power and versatility, the mighty Green Wave routed Auburn's Plainsmen in an impressive 32-0 win. The Greenie linemen almost stole the show from the more spectacular backs. Jack

Tittle, guard; Ernie Blandin, Charlie Dufour, tackles; and Bill Hornick, end, were outstanding.

The Wave ran and passed the Plainsmen dizzy. Lou Thomas, Walt McDonald, Bubber Ely, and Bob Glass led the Greenie offense. McDonald repeated his pass-catching performance of the Boston College game, calling plays well and turning in top-notch performances at blocking and tackling.

The Plainsmen's chief weapon, or at least the only effective weapon they had in this game, was some beautiful spot-kicking by "Monk" Gafford. Auburn as usual had a fighting team that wouldn't quit trying, but in this game they were completely outclassed by a Green Wave team that played a superlative game. Once more revenge was sweet for the Greenies.

Disaster struck with a heavy hand. The mighty Wave was humbled by the Rice Owl. The Wave showed up as superior in the statistics, having about a three to one edge on the Owls, but the scoreboard read Rice 10, Tulane 9.

Lady Luck put on her long black gown and sat on the Rice bench while her step-sister, all dolled up in the role of a vamp, came over to bewitch the Greenies. Miss Fate really gave the lads a going over beginning with a fumble at the beginning of the game on the Rice 6-yard line.

Chief factor in the Wave defeat was the great quick-kicking of the Owls. "Stoop" Dickson and Bob Brumley of the Owls were shining lights for their team, Dickson doing most of the kicking. Scoring for the Greenies were Bob Glass who made a 52-yard run and then three plays

later drove over for the lone touchdown, and Charley Dufour who blocked a Rice punt for a safety. Outstanding for the Wave besides Glass and Dufour were Ernie Blandin, Jack Tittle, Jimmy Thibaut, and Lou Thomas. The great had fallen, and North Carolina's Tarheels were next.

The mighty Green Wave hit its peak in this one. The sons of Tulane could do no wrong. With Lou Thomas starting the fireworks by returning the opening kick-off 102 yards for a touchdown, the Greenies were off on a scoring spree to drown the once mighty Tar Heels, 52-6.

This was a day for the Tulane left halfbacks. Thomas, besides the opening score, romped home three more times, and threw a pass to Walt McDonald for a fifth marker. Bubber Ely took the only other Tar Heel kick-off, the one following their lone score, and racked up a six-

point marker after a beautiful 97-yard run. Bob Glass also scored one to make it a perfect day for the left halfbacks. Besides their scoring sprees, these boys turned in brilliant performances, and Lou was the best man on the field for the day.

Close behind for starring roles were big Walt McDonald, one of the greatest Tulane quarterbacks of all time; "Wild Bill" Hornick, who turned in an All-American performance at end; and Jack Tittle, a running guard, who blocked with precision and deadly power.

Seldom has a Green Wave team risen to such a peak, for these Tar Heels were not easy. The Greenies literally exploded, and the fragments of Tar Heels could not stop the terrific power and passing game that was turned loose against them. This was a game that Wave fans would long remember and talk about.

Ole miss wins..

"Too many hands . . ."

Bob Glass breaking into the open for a first down.

The Rebels of Ole Miss came down to hand Tulane its second defeat of the year and to mar the Greenie homecoming. The Wave played a fine game but the fast and tricky Rebels were too much.

Ole Miss won this revival of an old series by the score of 20-13 led by the touchdown twins of Hapes and Hovius with the able assistance of Jackie Flack. Junie Hovius scored on a 77-yard run; Jackie Flack romped 49 yards and Merle Hapes went over from the one-yard line after a sustained march of 80 yards. The Wave made its first score on a 44-yard pass from Lou Thomas to Walt McDonald; and the final Greenie marker came on a one-

foot buck by Bob Glass after the Wave had driven 61 yards.

Tulane, as usual, outplayed the Rebels and in between scores made several threats, but each time they were stopped. The Greenies were again led by the boys who were becoming consistently dependable, Walt McDonald, Lou Thomas, and Bob Glass in the backfield, and Ernie Blandin, Jack Tittle, and Larry Rice in the line.

This was just a smart, fast, and tricky Rebel squad playing heads-up ball while the Greenies let down a little and could not seem to muster the punch necessary to cross

the final stripe. The Greenie backers looked forward to untied, unbeaten Vanderbilt.

Surging back to the form that had given them a smashing victory over Carolina, the Greenies swept over the Vanderbilt Commodores to remove those highly esteemed gentlemen from the ranks of gridiron greatness by a score of 34-14. For the first time, this edition of the Green Wave showed that they could come from behind, when Vanderbilt had swept down the field on a beautifully executed drive for first score in the first five minutes of play.

Sparked by Bob Glass and two previously obscure right halfbacks, Johnny Sims and St. John Smith, Tulane roared back to score five times. Three of these scores were the culmination of long drives, and two came on short drives. Walt McDonald, turning in a game that placed him among Tulane's football immortals, called his plays like a true veteran quarterback. His blocking was

as fine as was ever seen on Dudley Field in Nashville. To top off his performance, Big Mac caught two beautiful touchdown passes.

Also outstanding in this mighty display of power and versatility were Bernie Pracko at fullback, Bill Hornick at end, and Jack Tittle and Henri Wolbrette at guards. The Greenies on this day were unsurpassable and played the kind of game that coaches dream about. The greatest in-and-out team in the nation was definitely "in," and the Green Wave became a tropical heat wave. The followers of the Olive and Blue were hopeful for the following week-end when the Wave would have to meet the mighty Crimson Tide of Alabama. If the Wave should be up, the fans knew they couldn't be taken.

In one of the finest football games that fans of the Southland have ever seen, and one that broke a Southern attendance record, the Crimson Tide of Alabama handed

the Green Wave its third defeat of the season. Trailing in the last five minutes to play, the boys from the Capstone drove down to a touchdown that gave them a 19-14 victory. The only mar to an otherwise near-perfect game was a bad piece of officiating on this final drive when Jimmy Nelson, 'Bama's highly rated back, intentionally threw the ball away on an attempted pass because he was trapped. The penalty for this offense was not called, and the Tide went on to score.

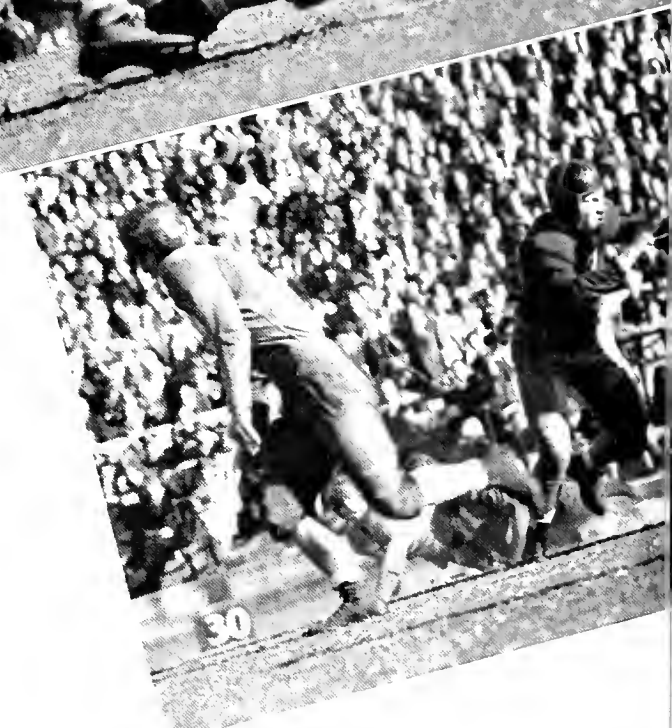

Johnny Sims, Wave right halfback, was the most consistent ground gainer of the day with a remarkable 5.1-yard average in twelve tries at lugging the leather. Nelson, on the same number of tries, netted only eight yards, for an average of .7 yard.

The Greenies scored on two brilliant passes, and came within a hair of scoring twice more by the same method. Both teams played well, and 53,000 fans went home thoroughly convinced that they had seen two of the nation's finest elevens in action.

Other outstanding men for the Greenies in this battle were Ernie Blandin, Walt McDonald, Jack Tittle, Bob Glass, Lou Thomas, Bill Hornick, and Sims, who was unstoppable. The Wave, determined to keep up their fine play, moved on to Gotham for the game with New York University.

Wave deluge halts Tide.

A well-earned rest. The Green Wave romped to a 45-0 victory over the Violets of New York University before 8,100 spectators in the Yankee Stadium. The hapless Violets were never in the ball game and Coach Dawson did everything to keep the score down.

Tulane's two great left halfbacks added another chapter to their duel. Bob Glass and Lou Thomas, neck and neck in performance all season, sparked the Wave again

in this fray. Thomas showed some more of his great running form by breaking loose for long gains. Walt McDonald also had a great day, and two second string ends turned in fine games, Marty Comer and Jay Rowland.

With the Violets using a nine-man line to stop the Greenies' powerful running attack, the lads in Green resorted to their well-developed passing game to score almost at will.

The crowd was disappointingly small, but the Greenies were warming up for their forth-coming L. S. U. battle.

hard. Probably they were trying too hard. Nothing would go right for the Green. Passes to McDonald that had clicked all year were broken up by Tiger center Bernie Liptis who stuck with Mac every time he crossed the line of scrimmage.

This reverse for the Wave kept up the in-and-out record that started after the two consecutive victories over Boston and Auburn. There were four afternoons during this season when the power and versatility of the Greenies would not click, and this was one of those days. Walt

Smith gets off a beauty.

This was the heart-breaking climax to a heart-breaking season. For the first time the 1941 Green Wave was outplayed. The Bayou Bengals came down from Tigertown as high as any football team could be. The Wave, out to avenge last year's defeat, was highly favored, but for once the bookies were wrong, to the tune of 19-0.

The Tigers played the finest game they played all season. Everything they did was right. The Greenies fought

Bob Glass, Blandin, Dufour, Jimmy Thibaut, Captain Pete Mandich, Harley McCollum, Jack Tittle, St. John Smith, and Harold Mullin played their last game for the Wave against the Tiger, and Tom Glass, out with a broken jaw, had already played his final time.

The Tulane Tennis Team was represented by two sophomores and three juniors, and played like seasoned seniors to finish the season by annexing the Conference Championship.

The Wave netters, lead by Bill McGee and Captain Roy Bartlett, withstood the gruelling schedule that Coach Pare had made for them

and came away with a clean slate. Helping these two win every match were Lou Schopfer, Mel Schwartzmann, and Lockett Yawn.

During the course of the season, the Greenies conquered such teams as Vanderbilt, Alabama, Princeton, Rice, Texas, Georgia, and L. S. U.

In winning the Conference Championship, the Wave won third and fourth places in the "A" singles and first place in the "A" doubles. In the "B" department Greenies won first and second places in the singles and first place in the doubles.

The team and its coaches.

The Tulane track team had one of its poorest seasons in years. The Greenie tracksters participated in three dual meets and were decisively beaten in each one.

Alabama handed the Greenies their first defeat in a meet held at Tuscaloosa, 83-35. In this meet the Wave won only four firsts. Monroe, Maunsell, McGee, and Collins accounted for a majority of the Wave's points.

Ole Miss ran over the Wave, 79-49. Dave Monroe turned in another fine performance. Dave won the mile and two-mile runs which made him high-point man for the Greenies.

In their final dual meet of the year, the Greenies were soundly whipped by the Bayou Tigers. Billy Brown was the high-point man of the meet, with thirteen points. Monroe won the mile run. Collins and Bentz gave a good account of themselves in the weight events.

The Greenies finished in seventh place in the S. E. C. meet at Birmingham, with 12 1-2 points. Rip Collins, Stewart Maunsell, Roman Bentz and Dave Monroe accounted for the Wave's points.

Coach Turpie and his boys.

HARRY DEAS

The Greenies participated in their first dual match of the year with L. S. U. at New Orleans. Led by Lee Ramsel, the Tigers crushed the Wave, 15-3. In a return match played at the end of the season on the L. S. U. links, the Tigers once again decisively beat the Wave, 15 1-2—2 1-2.

In their next match the Wave was beaten by Ole Miss, 11 1-2—2 1-2. J. C. Rolfs playing in the No. 4 position, defeated Al Gardner which

accounted for the squad's first intercollegiate victory of the year.

The team finally hit its stride against Vanderbilt. In a match played at Athens, Ga., the Greenie linksmen trimmed the Commodores in decisive fashion. The entire Greenie squad, which was composed of Don O'Neil, Harry Deas, Ellis Woodward, and J. C. Rolfs, showed a great deal of possibility in this match.

The purpose of the Intramural Council is to encourage the entire male student body to participate in organized athletics, and also to encourage participation in wholesome, active, and healthful recreation.

The Council has therefore organized and promoted competition between individuals and groups of students, and has fostered the spirit of fair play and sportsmanship between participants and spectators.

Intramural SPORTS

Sophs win the tug-o-war for the first time in years.

Intramural sports during the past school year have been varied more than ever before. In consequence of this, more students than ever before participated in the program.

Football, basketball, soccer, softball, tennis, track, and handball were the most popular in the intramural competitions while horseshoes, freethrow, bridge, chess, and checkers catered to less contestants but saw just as keen competition.

The good work of the Intramural Council is realized by the tremendous response to the call for competition in all of the tournaments that they introduce.

Newcomb's well equipped department of physical education offers a variety of sports in a year round program.

All freshmen must take the prescribed athletic courses, continuing with one elective through their junior year.

Each year there is interclass competition in basketball,

hockey, and swimming. For trophies in archery, tennis, bowling, badminton, ping-pong, shuffleboard, fencing and deck tennis a spring tournament is held.

There are also classes in folk, tap, and modern dancing culminating in the dancing classes' annual May Day Pageant.

Gym Night annually displays the stars of fencing, tumbling, apparatus work, and Danish gymnastics.

• We believe in the tenets of abiding truth which is the guiding star of our order. We believe in the helping hand which is the bar which binds us in our calling. We believe in the unity of service to one another which leads to the weary a word of cheer, to the poor a portion of our share, to the weak a need of pity, to the stricken a voice of comfort, to the old a memory of youth, and to the wayfarer a help along to the journey's end. Our emblem will always be an inspiration to duty, remembering it stands for excellence in all things, purity of purpose and honest of method and effort, with the blessing of an Alma Mater upon each who bears our badge of honor. JENNIE C. NIXON DEBATING CLUB

- Purpose: To foster interest in public speaking and debating on the campus.

DEBATING TEAM

Duckworth, King, and Waters.

MR. PARTRIDGE, Coach

The Debating Team at Tulane has appeared only this year on the Tulane campus. Of course, Tulane had had debate teams before this time, but the organization into a permanent organization under the guidance of their faculty adviser, Mr. Al Partridge, has proved that an organization of this sort was needed. They go into the mechanics of debating and also learn technique, besides the regular order of preparing debates against other colleges. Before very long, this baby organization should ripen into a powerful and commanding source of knowledge in extra-curricular activities. Not in the picture are: John Caraway, Frank Bruno, Charles Herrick, and Bob Woolley.

ORATORICAL AND DEBATING COUNCIL

Top Row: Monroe, Bagot, Wait, Smith. Bottom Row: Marx, Willis, Trice, Anthony.

The Oratorical and Debating Council is the father of all debate organizations at Tulane. Their purpose—to foster debating, encourage oratory, and sponsor freshman debating—is one which they may proudly say has been achieved in the many years that they have so desired to do.

Move the Mayflower Way

MAGNOLIA 5353!

Douglas Warehouses offer you Mayflower nation-wide moving service—the easy, trouble-free way to transport your household goods from any place to anywhere in the United States, or, to or from Canada.

Careful drivers—trained in the company's own school—know how to load, unload, and arrange your finest furniture.

Vans are owned by Mayflower and built by them especially to protect household goods during long distance moving.

Mayflower and Douglas take the undivided responsibility for safe delivery of your possessions. Affiliated warehouses in all principal cities.

TURNING A SWAMP INTO JOBS

In a remote corner of the Mississippi Delta, a waste of marshland has been converted into one of the nation's greatest Sulphur mines. This Grande Ecaille mine of the Freeport Sulphur Company is producing at top speed to supply America's wartime Sulphur needs and to help achieve ultimate victory. To the young men of Louisiana, the development of Grande Ecaille means even more than a source of Sulphur for steel, petroleum refining, rubber, pulp and paper, explosives, fertilizer and scores of other industries. It means new jobs, new livelihoods and new opportunities for those preparing today for the long years that stretch ahead.
